Good Faith Efforts

49 CFR Appendix A to Part 26—Guidance Concerning Good Faith Efforts directs NDDOT to establish contract goals for any USDOT-assisted contract for procuring construction, equipment, services, or any other purpose.

Bidders are required to either:

- Meet the contract goal, or,
- Make and document sufficient good faith efforts to meet the goal.

The documentation of the bidder's efforts must show that it took all necessary and reasonable steps to achieve a DBE goal; those steps that could reasonably be expected to obtain sufficient DBE participation, even if they were not fully successful.

Provide a narrative of the efforts your firm made along with SFN 60829 – Contractors Good Faith Efforts Documentation. <http://www.dot.nd.gov/forms/sfn60829.pdf>

Document your actions that show good faith efforts:

- Identify all certified DBEs that have the capability to perform the work of the contract
- Use written notices, phone calls, emails to all DBEs listed in the DBE directory that specialize in the areas of work desired.
- Solicit interest as early in the process as possible to allow the DBEs to respond and submit timely offers
- Determine with certainty if the DBEs are interested by taking appropriate steps to follow up initial contacts
- Select portions of the work to be performed by DBEs to increase the likelihood that the DBE goal is achieved
- Break out work items into economically feasible units to facilitate DBE participation, even when the prime contractor might otherwise prefer to perform these work items with its own forces.
- Provide interested DBEs with adequate information about the plans, specifications, and requirements of the contract in a timely manner
- Make a portion of the work available to DBE subcontractors and suppliers and to select those portions of the work or material needs consistent with the available DBE subcontractors and suppliers, so as to facilitate DBE participation. Negotiate in good faith with interested DBEs.
- Provide the names, addresses, and telephone numbers of DBEs that were considered; a description of the information provided regarding the plans and specifications for the work selected for subcontracting; and evidence as to why additional agreements could not be reached for DBEs to perform the work.

Inaugural DBE Boot Camp Wraps Up in April with Nine Graduate Firms

(Bismarck) – The North Dakota Department of Transportation’s (NDDOT) Disadvantaged Business Enterprise (DBE) Program announced the completion of its 2015-2016 Boot Camp, and issued certificates of completion to nine DBE firms. Civil Rights Coordinator Denise Spanjer, who oversees the DBE Program for the Department, took part in the final day’s training and graduation activities, which took place in Jamestown at the North Dakota Farmers Union headquarters.

“This was an exciting and rewarding experience, both for the Civil Rights Division, and for the DBEs who participated,” remarked Spanjer. “Nine DBE firms from across the state committed to a 24-month slate of training and consulting to improve their business management practices, and to increase their opportunity to bid on and manage federally-funded state highway projects. I’m very pleased with these firms, and with the results of this initiative, so far.”

Class participants work on an exercise on leadership.

The Boot Camp, part of a larger DBE Business Development program that combines large-group training and one-on-one consulting, was introduced in the fall of 2015 for DBEs who responded to a statewide invitation to sign up for the training and consulting services, provided by Project Solutions, Inc., a construction management consulting company based in Rapid City, South Dakota. The course, twelve half-day classes presented in six daylong sessions from November 2015 to April 2016, covered a wide range of construction management and business management topics such as pricing, markup and overhead; project management and communications; QuickBooks and advanced accounting for construction companies; marketing and business development; human resources; business goal setting and strategic planning; life cycles of a business; and leadership.

Denise, PSI President Sandy Burns, Project Director Patrick Murphy stand with Boot Camp graduates.

Inaugural DBE Boot Camp Wraps Up in April with Nine Graduate Firms

One of the immediate benefits to the training was assistance for each DBE firm to create or update an existing business plan, including a SWOT analysis, operations plan, sales and revenue forecast, and strategic goal setting. Additionally, Boot Camp trainers and facilitators made a number of site visits to DBE firms to learn more about their specific businesses and to provide individualized help on topics of importance to each company.

Course Instructor Sandy Burns shares her perspective on leadership with the class

Civil Rights Division Director Ramona Bernard, who attended the final class, congratulated the Boot Camp graduates and thanked them for their commitment to improving their business. "This course was a significant commitment of your time and effort," Bernard noted. "Over a six-month period you came to class every month, participated in discussions, prepared your business plan, and learned from the wealth of information provided by our instructors and presenters. Your payoff, hopefully, is a smarter, more efficient highway construction company that can compete and find ways to win more project work in North Dakota. I commend you all!"

DBE Program Administrator Denise Spanjer thanks participants for their work

Graduates of this inaugural Boot Camp included Bonnie Larson, D&B Portables, Jamestown; Jamie Dallmann, Dallmann Services, Jamestown; Holly Beck, Holly Beck Surveying & Engineering, Bismarck; Kevin Phelps, Miigwech Trucking, Grand Forks; Karen Naastad, Naastad Brothers, Inc., Hatton; Dennis Martin, North Star Trucking, Dunseith; Sherri Noonan, Rocking R Services, Minot; Curtis Houle, Town & Country Drilling, Mandan; and Steve and Jody Hsu, West River Striping, Mandan.
