

NOTICE

Starting immediately, Davis-Bacon certified payrolls on North Dakota DOT projects may be delivered to the Project Engineer. Payrolls not submitted through LCPTracker may now also be emailed to the Project Engineer, in pdf form. The pdf copy must be clear and legible and must be an accurate and complete copy of the certified payroll. It may contain either a true electronic signature or a photocopy of a wet signature. Contractors will receive the Project Engineer's email at Pre-Construction Conference. Please direct questions on this policy change to Gail Brown, NDDOT DBRA Wage Administrator, at (701) 328-2605.

NEWLY CERTIFIED NDDOT DBE

Business: P & L
Owner: Laura Kaschube
Location: 4360 Rd. 2037
Brockton, MT 59213
Phone: (541) 788-3727
Email: lurakmont@yahoo.com

Description of Services:

- TRUCKING: Hauling sand, gravel & riprap; Other: Flatbed work

Laura, Sole Proprietor of P & L, started her business in May of 2004 and has become a newly certified North Dakota DBE. Prior to starting her business, she was ranching. She starting working for a contractor on a crushing crew and during that time received her chauffer's license. This opened the door for her as a truck driver. Since then, she has received her Hazmat endorsement. These positions taught her the trade of hauling for construction projects.

Seven to eight years ago, Laura went to training that was being put on by the MT DBE Program in conjunction with the SBDC. That was the first time she had heard about the program. After encouragement from contractors, Laura applied and became a certified DBE.

At this time, Laura is mainly doing road construction with farming/ranching on the side. It's strictly hauling. She hauls gravel and asphalt. She will rent a flatbed to haul equipment if necessary. Montana has not had the highway construction that North Dakota has had, so she has been doing a lot of work in North Dakota.

This article was written from information provided from P & L's application.

BID DIFFERENTIAL ANALYSIS GUIDANCE

Guidance on Appropriate (Correct) Detailed Bid Differential Analysis for Use in Good Faith Efforts (GFE) Documentation

A detailed Bid Differential Analysis and Form C must be submitted when proposing to use a non-DBE over a DBE subcontractor due to price. The DBE Race-Conscious Special Provision (SP) requires a detailed comparison between non-DBE and DBE firms' quotes to be submitted in writing no later than 7 CALENDAR days after bid opening.

- Bid differential analysis between non-DBE over DBE quotes must compare the same bid items.
- Bid Differentials are ONLY between non-DBE and DBE firms. No bid differential analysis is needed to compare two or more DBE firms' quotes on the same items.
- If a non-DBE tied quote includes items not included by a tied DBE quote, "PLUG VALUES" will be not considered an adequate bid differential analysis by the Good Faith Efforts Committee.
- "PLUG VALUES" may be considered if the prime can document that the amount being used is an actual cost that has been paid or an actual cost the prime has quoted to perform the work concerned. Supporting documentation must be provided for these values to be considered.

Attach non-DBE and DBE quotes used in a Bid Differential along with the Form C for the non-DBE your firm proposes to use.

Example 1. Simple comparison between DBE and non-DBE Striping on bid item 101. Identify difference in amount and percentage.

1 Bid Differential – Submit Analysis			
Item #	101	Amount Difference	Percentage Difference
DBE Quote - Striping	45,000.00	\$1,000 higher	2.27%
Non-DBE Quote - Striping	44,000.00		
Bid differential on pavement marking (item 101): DBE Quote for Item # 101 was \$1,000 greater or 2.27% higher than the Non-DBE Quote. ATTACH the non-DBE Quote and the DBE Quote used in bid differential			

Example 2. DBE tied quote is compared to a combination of two non-DBE quotes to compare like items 99-103. Identify difference in amount and percentage.

2 Bid Differential – Submit Analysis							
	Item #					Total	Tied or Not-Tied
	99	100	101	102	103		
DBE Quote	500.00	500.00	500.00	600.00	500.00	2,600.00	Tied Quote
Non-DBE Quote #1		400.00	600.00	300.00		1,300.00	Tied Quote
Non-DBE Quote #2	600.00				400.00	1,000.00	Untied Quote
Bid differential on pavement marking (items 99-103): DBE Quote for Items 99-103 were compared to Non-DBE Quote #1 and Non-DBE Quote #2 on like items. DBE Quote was tied, Non-DBE Quote #1 was Tied, and Non-DBE Quote #2 was untied. Total of DBE Quote was \$2,600; Total of Non-DBE Quotes was \$2,300. DBE Quote was \$300 and 11.54% higher than the combined Quotes ATTACH the non-DBE Quotes and the DBE Quote used in bid differential along with a Form C with the non-DBE proposed to be used							

BID DIFFERENTIAL ANALYSIS GUIDANCE - PAGE 2

Example 3. DBE tied quote on bid items 99-103 cannot be compared to non-DBE tied quote. The non-DBE quote did not include items 99-103. Selected non-DBE quote on items 100-102. There is NO bid differential to submit in this case.

3 No Bid Differential - - Explain in Good Faith Efforts Documentation Not Comparing Like Items							
	Item #						
	99	100	101	102	103	Total	Tied or Not-Tied
DBE Quote	500.00	500.00	500.00	600.00	500.00	2,600.00	Tied Quote
Non-DBE Quote	Missing	400.00	600.00	300.00	Missing	1,300.00	Tied Quote
<p>There is no Bid differential on pavement marking (items 99-103) because the DBE Quote was tied. Prime Contractor may call the DBE to discuss "Untying" the Quote or find another contractor that quoted the other items. Identify who is performing the items quoted by DBEs if DBEs are not used so that all Bid Items Quoted by DBEs are addressed.</p> <p>DBE Quote for Items 99-103 cannot be compared to Non-DBE Quote on like items.</p>							

4 Bid Differential – Considering items not included in quotes – Submit Analysis							
	Item #						
	99	100	101	102	103	Total	
DBE Quote	500	500	500	600	500	2,600.00	2,600.00
Non-DBE Quote		400	600	300		1,300.00	Compared to the Combination
Prime will perform items 99 and 103 with own forces	450				450	900.00	
<p>In this example a bid differential on pavement marking (items 99-103) is appropriate. The DBE tied quote totals \$2,600.00; the combination of the non-DBE and the prime self-performing the items not quoted by the non-DBE when compared is \$400 lower. The prime must explain how the self-performance costs were calculated.</p>							

QUOTING OPPORTUNITIES FOR THE NOVEMBER 18, 2016 BID OPENING

ANDERSON WESTERN, INC. - PO BOX 2319 1707 YEGEN ROAD, BISMARCK, ND 58502, is seeking quotes on any and all items or materials within the scope of the project(s) on job number(s) 6, 9, 26, 28 for the November 18, 2016 NDDOT Bid Opening to be held at 09:30 AM. PROMPT PAY PAMPHLET PAGE 1

Can final documentation delay payments to subcontractors?

Yes. NDDOT Specifications require documentation to be submitted to the project engineer prior to progress payments being made to subcontractors. Required documentation may include certified payrolls; materials certification; haul road releases; pit receipts of payment; pit releases; night watchperson reports; warranties; operating manuals; product literature; verification of final quantities; DBE participation certification; proof of payment for material bills and wages; and any other documents required by the contract for the subcontractor's work.

How will the new Civil Rights online system help me pay subcontractors promptly?

Contractors who use the Civil Rights Certification & Compliance System (CRCCS) will receive an email from the system when NDDOT progress payments are issued. Contractor staff will then enter payment amounts made to subcontractors. The system will track payments, assure that the timeframes are met, and allow subcontractors to confirm the receipt of their payments.

Are there other benefits for using CRCCS?

Contractors who use CRCCS will no longer need to send mail, faxes or emails to the Civil Rights Division to submit paperwork. All submissions will be made online. Contractors will have access to all documents submitted in their online accounts. All projects awarded to a prime will be stored in and can be accessed from the same location.

The North Dakota Department of Transportation (NDDOT) Civil Rights Division ensures statewide compliance with the NDDOT federal non-discrimination and affirmative action obligations as a condition of continued federal funding for highway construction. NDDOT promotes opportunities for socially and economically disadvantaged individuals to participate on federally funded highway projects.

It is the policy of the NDDOT to ensure compliance with Title VI of the Civil Rights Act of 1964, related statutes and regulations to the end that no person shall be excluded from participation in or be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance from the U. S. Department of Transportation on the ground of race, color, sex, age, disability, or national origin.

The guidance explained in this brochure is detailed in the NDDOT Standard Specifications for Road and Bridge Construction. Always refer to the NDDOT Standard Specifications for the specific requirements.

PROMPT PAY PAMPHLET PAGE 2

Prompt Pay Requirements

NDDOT Standard Specifications for Road and Bridge Construction requires prime contractors to pay subcontractors within 20 days of receiving NDDOT's progress payment.

On what authority can NDDOT require me to pay within 20 days of my being paid?

49 CFR §26.29 requires NDDOT to assure Prompt Pay Mechanisms on all contracts. NDDOT's Standard Specifications Section 109.4D Measurement and Payment-Prompt Payment, provides this assurance. The NDDOT will apply the prompt payment procedures to all tiers of subcontracts.

How much will NDDOT retain from my prime contract?

The NDDOT will withhold retainage of 2 percent from all prime contracts.

How is a prime contractor paid for work on NDDOT jobs?

NDDOT pays prime contractors as stated in the Standard Specifications for Road and Bridge Construction. Section 109, Measurement and Payment, provides the project engineer and the prime contractor with guidance on measurements, weights, materials, etc. to be considered as the prime contractor's work progresses.

NDDOT project engineers review the prime contractor's progress and prepare progressive estimates based on the satisfactory completion of the work. Progress payments made to the prime contractor are based on the project engineer's estimates.

How much may I retain from my subcontractors?

All prime contractors may hold retainage of no more than 2 percent of the subcontracted amount.

When am I required to pay retainage owed to my subcontractors?

Prime contractors must pay all retainage owed to the subcontractor for satisfactory completion of the work within 20 days after NDDOT's payment to the prime contractor. The requirement to release retainage applies to all tiers of subcontracts.

When is a subcontractor's work "satisfactorily completed"?

The Engineer will determine satisfactory completion of the subcontractor's work. A subcontractor's work is satisfactorily completed when all the tasks called for in the subcontract have been accomplished and documented as the Specifications require.

When NDDOT has paid for all of the work included in a subcontract, that subcontractor's work is considered satisfactorily completed.

How long can I wait to pay my subcontractors?

Within 20 calendar days of receiving NDDOT's payment, the prime contractor must pay subcontractors their portion of the payment less applicable retainage. Subcontractors must also pay their lower tier subcontractors within 20 calendar days of being paid. This applies to all tiers of subcontracting.

What should a subcontractor do if the prime does not make payment within 20 days after the prime received NDDOT's payment?

If the prime does not make prompt payment, the subcontractor should notify the project engineer. A subcontractor who doesn't have the project engineer's contact information may contact the District Office in which the project is located.

Under what circumstances is a prime allowed not to pay a subcontractor within 20 days?

The prime may withhold payment to a subcontractor for just cause. If withholding payment from a subcontractor, the prime contractor must immediately provide written notification to the subcontractor and the project engineer with the reasons for withholding the payment. If the Engineer determines the Contractor is withholding payment with just cause, interest will not accrue.

What happens if the prime is withholding payment to a subcontractor without just cause?

When the project engineer determines the prime is withholding payment without just cause, interest will begin to accrue beginning on the 21st calendar day after the Contractor's receipt of payment from NDDOT. North Dakota law (NDCC 13-01.1-02) provides the rate at which interest will accrue.
