

Federal Motor Carrier Safety regulations require **certain** Commercial Driver License (CDL) holders to mail, fax, or email a **copy (not the actual card)** of their Medical Certificate to the Drivers License Division in Bismarck. If you are one of the drivers required to send a copy of your medical certificate to our office, you are also required to keep your medical certificate current even during times you are not actively driving commercial motor vehicles.

If you are required to send a copy of your medical certificate to the Drivers License Division, failure to do so will result in downgrading your commercial driving privileges to noncommercial driving privileges only. Downgrading will also occur if you allow your medical certificate to expire.

Note: your record will be updated sooner if you fax or email the copy to us.

Please include your name, drivers license number, and telephone number with the copy of your medical certificate. Mail, fax, or email to:
