

When and How can I Preview the Bill for My Agency -

You can preview your bill at any time. From the Main Menu, under the Billing heading, select "Bill Preview." This will display the Bill Preview page for your agency. From this page you can select the "Previous Balance" (if applicable), "Total current usage charges," "Total current adjustments," and "Total payments received" links to view additional details about the bill.

The bill preview is restricted to members of your district/agency only. You can not view another agency's bill.
