## **Westbound traffic on I-94 reduced to one lane near Bismarck Exit 159 for repair work**

Westbound traffic on Interstate 94 will be reduced to one lane near Bismarck Exit 159 to complete repair work on bridge structure.

Traffic speeds will be reduced to 50 mph. Repair work is expected to be completed by October 23<sup>rd</sup>.

Rear-end crashes are the most common in work zones. Motorists are encouraged to allow extra distance between their vehicles and the vehicles in front of them, use extra caution, and obey posted signage.
