Traffic speed reduced to 55 mph on US Hwy 83 near Minot Air Force Base beginning October 29

The speed limit on US Highway 83, 10 miles north of Minot will be permanently reduced to 55 mph beginning Thursday, October 29, on approximately 2 miles of highway. The reduction in speed on this roadway is for the safety of the traveling public and to improve traffic flow near the entrances of the Minot Air Force Base (MAFB).

Future changes planned for 2010 and include:

- Lane marking changes
- Radar speed boards to inform traffic of their current speed
- Additional signage
