## **A portion of US 83 and ND Hwy 23 south of Minot to be closed for movement of crane**

As part of the Prairie Winds wind turbine project a portion of US Hwy 83 will be closed for movement of a crane across the highway on Tuesday, November 3, between the hours of 2 a.m. and 4 a.m. The portion of roadway to be closed on US Hwy 83, is located on approximately 1 mile south of the US 83 and ND 23 junction (at mile marker 182). There will also be another crane crossing the highway at the same time on ND Hwy 23, 1.5 miles east of the junction on ND 23 and US Hwy 83 (at mile marker 107).

### **During the crane crossing on ND Hwy 23**

- Traffic should expect delays of up to 20 minutes or more as the crane crosses the roadway
- Flaggers will be on site to control traffic

### **During the crane crossing on US Hwy 83**

- Traffic should expect delays of up to 20 minutes or more as the crane crosses the roadway
- A lane closure will be in effect
