## **Construction to begin on Interstate 29 and ND 13 Bridge**

Construction will begin Monday, June 11, on the eastbound roadway of the ND Highway 13 bridge over Interstate 29 near Wahpeton. Work consists of median crossover construction and bridge deck replacement.

Once this portion of the project is complete, traffic will be head to head and the loop ramp in the SW corner will be closed. Southbound I-29 traffic exiting towards Wahpeton will exit on the NW ramp to make their connection onto the ND 13 eastbound roadway.

During construction:

- Traffic will be reduced to one lane in each direction on ND 13 and lane closures will be in place on I-29 through the interchange.
- Speeds will be reduced
- Motorists may experience brief delays
- Flaggers may be present
- A 12 foot width restriction will be in place on ND 13 over I-29

The project is expected to be completed in mid September.

The traveling public should use caution when driving through the construction zone. Motorists should allow extra distance between their vehicles and the vehicles in front of them, use extra caution and obey flaggers and posted signs.
