Organ and tissue donation registration available through NDDOT

The North Dakota Department of Transportation (NDDOT) would like to remind residents they have the option to register to become an organ and tissue donor either at a Drivers License testing site or on the Department's website at <http://www.dot.nd.gov/public/licensing.htm>. This program is open to any North Dakota resident, 14 years of age or older, who holds a valid North Dakota drivers license, permit or identification card.

Organ and tissue donation in North Dakota is managed by LifeSource. For more information about LifeSource, or to find stories about individuals impacted by an organ donation, visit www.DonateLifeND.org or call 1-888-5-Donate (1-888-536-6283).
