ND Highway 18 closed at Neche due to water over the roadway

The North Dakota Department of Transportation (NDDOT) along with the North Dakota Highway Patrol have closed ND Highway 18 at Neche due to water over the roadway. Motorists must use an alternate route.

The following roadways remain closed due to flooding:

- ND Highway 5 and ND Highway 18 are closed into Cavalier to allow city officials to conduct flood control operations. Only local traffic is allowed in the area.

The following highways are affected by flood waters, but remain open to traffic, with traffic speeds reduced:

- ND 32, five miles north of Mountain
- ND 18, one mile north of Forest River
- ND 66, traffic is reduced to one lane in the town of Crystal to allow city officials to conduct flood control operations
- ND 200, two miles east of Bowdon
- ND 200, westbound lane four miles west of Hurdsfield

Fluctuating water levels make it difficult to predict when and where water will go over a roadway or recede from the roadway. The NDDOT encourages motorists to check road conditions before traveling due to rapidly changing conditions. For updated road information, call 511 from any type of phone or go to the Travel Information Map on our website at www.dot.nd.gov.

Please be advised that road condition information on 511 and the travel map is updated daily from 5 a.m. until 9 p.m. CDT. The road report is based upon the information available to the NDDOT at the time of preparation and is provided solely as a public service. Conditions may vary from those reported
