## **ND 14 now open south of Towner; Water still on roadway**

The North Dakota Department of Transportation (NDDOT) along with the North Dakota Highway Patrol have opened ND Highway 14, six miles south of Towner. Water remains on the roadway at this time and speeds are reduced.

**The following highways are affected by flood waters, but remain open to traffic, with traffic speeds reduced:**

- Eastbound roadway of US Highway 2, six miles south of Towner has water on the shoulder.
- US Highway 83, nine miles north of Max – Temporary grade raise in place with single lanes of traffic in both directions.
- ND Highway 53, east of Max.
- ND Highway 200, four miles west of Hurdsfield.
- ND Highway 200, four miles east of Hurdsfield- Temporary Grade raise in place with a single lane of traffic.

Fluctuating water levels make it difficult to predict when and where water will go over a roadway or recede from the roadway. The NDDOT encourages motorists to check road conditions before traveling due to rapidly changing conditions. For updated road information, call 511 from any type of phone or go to the Travel Information Map on our website at [www.dot.nd.gov](http://www.dot.nd.gov).

The road report is based upon the information available to the NDDOT at the time of preparation and is provided solely as a public service. Conditions may vary from those reported.
