Wide loads restricted on ND 22 from Lost Bridge to ND 73 during construction project

Construction work continues on ND Highway 22 from the Lost Bridge north to ND Highway 73 near Mandaree and drivers hauling wide loads should know that traffic lane widths are limited in the construction area and delays may be experienced. Wide loads are only allowed on the 15-mile segment of roadway if their destination is **only** accessible from within this ND 22 construction project area. Oversize permits can be obtained by contacting the Motor Carrier Permit Office at <http://www.nd.gov/ndhp/motor-carrier> or by calling (701) 328-2621.

The project is expected to be completed in November.

For more information about this project and others, please go to www.dot.nd.gov.
