Issued as of 5:30 p.m.

## Travel Alert extended to include Williston and surrounding areas

The North Dakota Department of Transportation (NDDOT) has extended the **Travel Alert** to include the cities of Williston, Tioga, Stanley, New Town, Watford City and surrounding areas due to snow and blowing snow causing reduced visibility. Conditions are such that **motorists can still travel** but should be advised of changing conditions. Motorists are encouraged to reduce speeds and drive according to the conditions.

A **No Travel Advisory** remains in effect for extreme southwest North Dakota due to snow and blowing snow causing near zero visibility. Cities in the **No Travel Advisory** include Bowman, Beach, Belfield, Dickinson, New England, Hettinger and surrounding areas. Motorists should be advised that snow drifts may be encountered at overpasses and sheltered areas and additional roadways may become blocked in this part of the state.

In addition, a **Travel Alert** remains in effect for Killdeer, Beulah, Richardton, Mott and surrounding areas due to snow and blowing snow causing reduced visibility.

All travelers are encouraged to monitor road conditions, reduce traffic speeds as weather conditions occur and use caution while traveling. For road information, call 511 from any type of phone or go to the website: [www.dot.nd.gov](http://www.dot.nd.gov). NDDOT releases information to inform the public about travel conditions throughout the state. The three categories are as follows:

1. **TRAVEL ALERT** – Motorists can still travel but may encounter areas of challenging winter weather driving conditions on roadways. Motorists should allow extra time to reach their destination and be alert to conditions that may make travel difficult, change rapidly, or cause travel delays. A TRAVEL ALERT has the potential to change to a NO TRAVEL ADVISED if conditions deteriorate.
2. **NO TRAVEL ADVISED** – Motorists should not travel due to hazardous conditions which may make it unsafe to travel. Snowplows may be pulled from the roads during severe conditions. Motorists should take NO TRAVEL ADVISED seriously as those motorists who choose to travel at their own risk may become stranded and emergency responders may not be able to reach them safely. A NO TRAVEL ADVISED has the potential to change to a ROAD CLOSED OR BLOCKED if conditions deteriorate.
3. **ROAD CLOSED OR BLOCKED** – Motorists are not allowed to travel on a closed road due to life threatening conditions. The road may be impassible or blocked. Motorists who drive past a road closure device may be fined up to \$250.

Please be advised that road condition information on 511 and the travel map is updated daily from 5 a.m. until 9 p.m. CDT. The road report is based upon the information available to the NDDOT at the time of preparation and is provided solely as a public service. Conditions may vary from those reported.

If you become stranded, motorists should stay with their vehicle and call 911 for emergency assistance.
