No Travel Advisory extended to Devils Lake area; Travel Alert extended to south central and southeast region of North Dakota

The North Dakota Department of Transportation (NDDOT) and the North Dakota Highway Patrol have extended the **No Travel Advisory** to include the Devils Lake and surrounding area due to high winds, snow and blowing snow causing areas of near zero visibility creating hazardous driving conditions. Conditions are such that motorists in this area **should not travel**.

A No Travel Advisory remains in effect for northeastern North Dakota due to high winds, snow and blowing snow causing areas of near zero visibility creating hazardous driving conditions. Cities included in the **No Travel Advisory** are Grand Forks, Buxton, Michigan, Cavalier, Grafton, Drayton, Pembina, and surrounding areas. Conditions are such that motorists in this area **should not travel**.

The **Travel Alert** has been extended to south central and southeast regions of North Dakota due to high winds, snow and blowing snow causing reduced visibility. Cities included in the **Travel Alert** are Fargo, Valley City, Jamestown, areas to the north and east of Bismarck, and surrounding areas. Motorists may encounter areas of near zero visibility and are encouraged to reduce speeds and drive accordingly. Conditions are such that **motorists can still travel** in these areas, but should be advised of rapidly changing conditions

A Travel Alert remains in effect for all remaining areas along and north of US-2 to the Canadian Border in northern North Dakota due to high winds, snow and blowing snow causing reduced visibility. Cities included in the **Travel Alert** are Williston, Minot, and surrounding areas. Motorists may encounter areas of near zero visibility and are encouraged to reduce speeds and drive accordingly. Conditions are such that **motorists can still travel** in these areas, but should be advised of rapidly changing conditions.

All travelers are encouraged to monitor road conditions as weather conditions occur and use caution while traveling. For road information, call 511 from any type of phone or go to the website: www.dot.nd.gov. NDDOT releases information to inform the public about travel conditions throughout the state. The three categories are as follows:

1. **TRAVEL ALERT** – Motorists can still travel but may encounter areas of challenging winter weather driving conditions on roadways. Motorists should allow extra time to reach their destination and be alert to conditions that may make travel difficult, change rapidly, or cause travel delays. A TRAVEL ALERT has the potential to change to a NO TRAVEL ADVISED if conditions deteriorate.

2. **NO TRAVEL ADVISED** – Motorists should not travel due to hazardous conditions which may make it unsafe to travel. Snowplows may be pulled from the roads during severe conditions. Motorists should take NO TRAVEL ADVISED seriously as those motorists who choose to travel at their own risk may become stranded and emergency responders may not be able to reach them safely. A NO TRAVEL ADVISED has the potential to change to a ROAD CLOSED OR BLOCKED if conditions deteriorate.
3. **ROAD CLOSED OR BLOCKED** – Motorists are not allowed to travel on a closed road due to life threatening conditions. The road may be impassible or blocked. Motorists who drive past a road closure device may be fined up to \$250.

Please be advised that road condition information on 511 and the travel map is updated daily from 5 a.m. until 9 p.m. CDT. The road report is based upon the information available to the NDDOT at the time of preparation and is provided solely as a public service. Conditions may vary from those reported.

If you become stranded, motorists should stay with their vehicle and call 911 for emergency assistance.
