Traffic to be shifted to newly paved roadway at the ND Highway 23 and ND Highway 1804 intersection in New Town today

Traffic will be shifted to a newly paved roadway at the intersection of ND Highway 23 and ND Highway 1804 in New Town beginning today, October 17, to allow crews to complete paving work at the intersection. This project includes reconstruction of the intersection, paving, new intersection signals and an additional center turn lane on ND Highway 1804.

During construction:

- Speeds will be reduced to 25 mph
- Motorists should expect delays
- Flaggers will be in place
- An 11-foot width restriction will be in place

The traffic switch will be in place until late October.

The NDDOT Williston District serves the transportation needs of the communities in northwestern North Dakota, including Williston, Alexander, Watford City, New Town, Stanley and Berthold. NDDOT has been working very hard to build new bypasses, expand roadways and provide roadway improvements that will enhance traffic movement in this very fast growing part of the state to get motorists where they need to go safely. To learn more about this year's projects visit www.nddotwilliston.com.
