## **NDDOT asking for public input about road information**

The North Dakota Department of Transportation (NDDOT) is asking motorists for their input on how the Department disseminates road condition information. The NDDOT is interested in using this data to better serve the traveling public.

In order to help collect this information, the NDDOT is asking motorists to fill out a brief survey concerning their views about road condition terminology and other travel related information.

NDDOT Maintenance Division Director, Brad Darr said, "Safety is one of the NDDOT's main priorities and providing road condition information is one way we can help motorists plan ahead when traveling on state highways."

This survey will be open for public input until March 31, 2015. We would sincerely appreciate it if you would take a few minutes and provide the NDDOT with feedback by going to NDDOT homepage at <https://www.dot.nd.gov> and clicking on the *Road Information Survey* link at the top of the page or by going to [https://www.surveymonkey.com/s/NDDOT\\_Motorist](https://www.surveymonkey.com/s/NDDOT_Motorist).
