## **Traffic temporarily reduced to one lane on ND 81 in north Grafton for rail work**

Traffic is reduced to a single lane on ND Highway 81 (RP 192.3) on the north end of Grafton while crews from Dakota Railroad do maintenance work on the track. During this temporary lane closure, north bound and south bound traffic will need to stop and take turns.

### **During maintenance work:**

- There will be a 12 ft. width restriction in place
- No flagger will be on site
- Traffic will need to follow signage and alternate

The project is expected to be complete by tomorrow evening, Thursday, December 3, 2015.
