

Design Memorandum No. 09-2005

TO: Engineering Offices and Divisions
Districts
Consulting Engineers

FROM: Mark S. Gaydos, P.E. - Design Engineer /s/

DATE: June 27, 2005

Design Manual Reference:

Section III-04.05

____ Revision

X Supplemental

SUBJECT: TOPSOIL PROVIDED FOR COVERING SLOUGHS

Introduction

The memorandum provides guidance on providing the appropriate quantity of topsoil to cover sloughs.

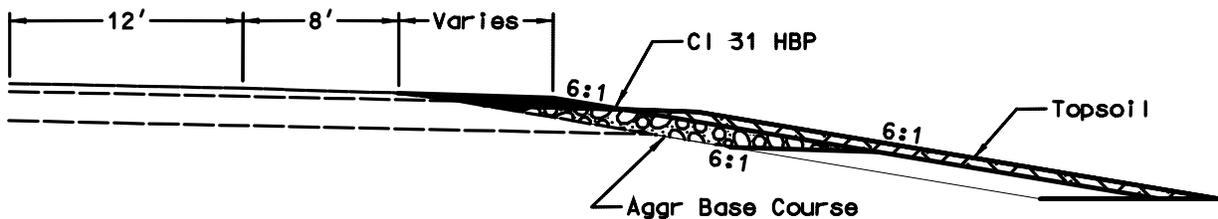

Implementation

The use of this guidance is to be implemented immediately.

Guidance

The quantity of topsoil provided in the plans shall include enough topsoil to cover the entire slough of the base material up to the bottom of the pavement slough.

An example of a typical section is shown below.

Questions

Any questions regarding the content or implementation of the memorandum should be referred to Ron Henke, Design Division, 701-328-4445.
