

How can I Compare My Agency's Total Vehicle Usage this Month Against Another Month -

From the Main Menu, under the Misc. heading, select “Monthly Usage,” that will bring you to a Monthly Usage page where you can specify your search criteria. The “End Month” field is required. Click on the “Search” button to see the listing of vehicles that matched your search criteria. Up to twelve months worth of data can be represented on this page.

Clicking on the "ViewVehicle" link under the Action heading will take you to a page to view the details for that particular vehicle.
