

Where Can I Find My Turnaround Document -

What was previously called a "turnaround document" is now the Vehicle Report. You can find it under the Main Menu's Billing section by clicking on the "Vehicle Report" link. That will display a page with all the vehicles assigned to your department/agency. You could refine this list by adding the additional search criteria of location within your department. Click on the "Printer Friendly" button to generate a pdf file of the Vehicle Report that could be printed and used to assist with the collection of the meter information.

09/05/2009 01:15 PM State of North Dakota Department of Transportation State Fleet Services Vehicle Report Transportation, Department Of (80100) Page: 1
