SPECIAL ROAD FUND

During the 2015-2016 session, the 64th Legislative Assembly appropriated an additional \$2 million to the Special Road Fund (SRF). With the additional revenue to the SRF fund, the North Dakota Department of Transportation (NDDOT) is accepting applications for SRF projects.

SRF projects are limited to roads that provide access to and/or are within recreational, tourist, and historical areas. The intent of this program is to help finance highway projects identified by political subdivisions and state agencies which typically have some funding but need additional help. We are soliciting counties, cities, and state agencies to identify projects of this nature. The maximum NDDOT contribution will be limited to 60 percent, with the financial participation amount increasing from \$250,000 to \$300,000.

We are now soliciting applications for projects that can be built in 2016 or 2017. Applications are to be submitted by November 13, 2015, to the NDDOT Local Government Division. It is anticipated that the Special Road Fund Advisory Committee will meet in December 2015 to review the applications and select projects for funding.

If you have any agencies within your jurisdiction such as park boards, historical societies, townships, etc., please advise them of this program. Depending upon the proposed project's location, the application must be sponsored by a county, a city, or a state agency.

If you have questions or need assistance with the application process, please contact Pam Wenger, Local Government Division, at (701) 328-4787.
