## No Travel Advisory extended to areas west of Bismarck

The North Dakota Department of Transportation (NDDOT) has extended the **No Travel Advisory** to include areas west of Bismarck including Center, Glen Ullin, and Selfridge due to blowing snow and areas of zero visibility. Areas east of Bismarck remain under the **Travel Alert**.

Motorists should be advised that snowplow operators have been working since early morning hours and throughout the day and **have been pulled from the roadways in the Dickinson, Williston, rural areas around Minot, and areas north of Devils Lake**. NDDOT snowplows will resume operation early tomorrow morning when it is safe to do so. Motorists should be advised that snow drifts may be encountered at structures and sheltered areas and additional roadways may become blocked overnight in these part of the state. **Motorists should not travel in these areas.**

As a reminder, a **No Travel Advisory** is in effect for Dickinson, Williston, Minot and areas north of US 2 in the northeast portion of the state due to blowing snow creating near zero visibility in these areas. Motorists are reminded that a **No Travel Advisory** means hazardous conditions exist making it unsafe to travel. A **Travel Alert** remains in effect for areas east of Bismarck, Jamestown, Valley City, Fargo, Wahpeton, areas south of Devils Lake and Grand Forks.

All travelers are encouraged to monitor road conditions as weather conditions occur and use caution while traveling. For road information, call 511 from any type of phone or go to the website: [www.dot.nd.gov](http://www.dot.nd.gov). NDDOT releases information to inform the public about travel conditions throughout the state. The three categories are as follows:

1. **TRAVEL ALERT** – Motorists can still travel but may encounter areas of challenging winter weather driving conditions on roadways. Motorists should allow extra time to reach their destination and be alert to conditions that may make travel difficult, change rapidly, or cause travel delays. A TRAVEL ALERT has the potential to change to a NO TRAVEL ADVISED if conditions deteriorate.
2. **NO TRAVEL ADVISED** – Motorists should not travel due to hazardous conditions which may make it unsafe to travel. Snowplows may be pulled from the roads during severe conditions. Motorists should take NO TRAVEL ADVISED seriously as those motorists who choose to travel at their own risk may become stranded and emergency responders may not be able to reach them safely. A NO TRAVEL ADVISED has the potential to change to a ROAD CLOSED OR BLOCKED if conditions deteriorate.
3. **ROAD CLOSED OR BLOCKED** – Motorists are not allowed to travel on a closed road due to life threatening conditions. The road may be impassible or blocked. Motorists who drive past a road closure device may be fined up to \$250.

Please be advised that road condition information on 511 and the travel map is updated daily from 5 a.m. until 9 p.m. CDT. The road report is based upon the information available to the NDDOT at the time of preparation and is provided solely as a public service. Conditions may vary from those reported.

If you become stranded, motorists should stay with their vehicle and call 911 for emergency assistance.
