ND 14 closed south of Towner due to water on the road

The North Dakota Department of Transportation (NDDOT) along with the North Dakota Highway Patrol have closed ND Highway 14, six miles south of Towner due to water over the roadway. Motorists must use an alternate route.

The following highways are affected by flood waters, but remain open to traffic, with traffic speeds reduced:

- US Highway 83, nine miles north of Max.
- ND Highway 53, east of Max.
- ND Highway 200, four miles west of Hurdsfield.
- ND Highway 200, four miles east of Hurdsfield- Temporary Grade raise in place with a single lane of traffic.

Fluctuating water levels make it difficult to predict when and where water will go over a roadway or recede from the roadway. The NDDOT encourages motorists to check road conditions before traveling due to rapidly changing conditions. For updated road information, call 511 from any type of phone or go to the Travel Information Map on our website at www.dot.nd.gov.

The road report is based upon the information available to the NDDOT at the time of preparation and is provided solely as a public service. Conditions may vary from those reported.
