Construction begins on US 2 near Larimore

Construction began this week on the eastbound roadway of US Highway 2 from Niagara to 1.4 miles east of the junction of ND 18 near Larimore. The project consists of concrete overlay work along with safety improvements to the roadway.

During the project:

- Traffic will be head-to-head on the westbound roadway of US 2
- Speeds will be reduced to 40 mph
- Flaggers will be present
- A width restriction of 15 feet will be in place
- An alternate route is recommended for oversize loads

The project is expected to be complete this fall.

Help prevent work zone crashes. Motorists are encouraged to slow down, allow extra distance between their vehicles and the vehicle in front of them, use caution and obey flaggers and posted signs.
