Canada officials have reopened Highway 75 from U.S. Border in Emerson to Morris Manitoba

Manitoba, Canada – Manitoba Infrastructure and Transportation officials have **REOPENED** Highway 75 from the U.S. border in Emerson to Morris. Highway 75 from Morris to Sainte Agathe is still **CLOSED** due to blowing snow and poor visibility. Motorists should be aware that I-29 at Pembina turns into Highway 75 once you cross the border into Canada.

For the most current information on road conditions in Manitoba go to www.mb511.ca or follow them on Twitter at [@MBGovRoads](https://twitter.com/MBGovRoads)

The three categories are as follows:

1. **TRAVEL ALERT** – Motorists can still travel but may encounter areas of challenging winter weather driving conditions on roadways. Motorists should allow extra time to reach their destination and be alert to conditions that may make travel difficult, change rapidly, or cause travel delays. A TRAVEL ALERT has the potential to change to a NO TRAVEL ADVISED if conditions deteriorate.
2. **NO TRAVEL ADVISED** – Motorists should not travel due to hazardous conditions which may make it unsafe to travel. Snowplows may be pulled from the roads during severe conditions. Motorists should take NO TRAVEL ADVISED seriously as those motorists who choose to travel at their own risk may become stranded and emergency responders may not be able to reach them safely. A NO TRAVEL ADVISED has the potential to change to a ROAD CLOSED OR BLOCKED if conditions deteriorate.
3. **ROAD CLOSED OR BLOCKED** – Motorists are not allowed to travel on a closed road due to life threatening conditions. The road may be impassible or blocked. Motorists who drive past a road closure device may be fined up to \$250.

Please be advised that road condition information on 511 and the travel map is updated daily from 5 a.m. until 9 p.m. CDT. The road report is based upon the information available to the NDDOT at the time of preparation and is provided solely as a public service. Conditions may vary from those reported.
