New Town Main Street work zone to be extended to Central Avenue beginning Monday, July 13

Beginning on Monday, July 13, the New Town Main Street\ND Highway 23 Reconstruction project will be extended from Park Place to Central Avenue. Traffic will be switched to the right side of the roadway to allow crews to continue work on the project. This is an extension of the previous portion of the reconstruction project from the ND Highway 1804 intersection to Park Place. This project includes concrete overlay, roadway widening, shoulder reconstruction, storm drain reconstruction, curb and gutter reconstruction, sewer reconstruction, and water main reconstruction, lighting and signals.

During construction:

- Flagger will be in place to direct traffic
- Motorists may experience delays
- Local businesses will be open and accessible

Motorists should expect varying traffic restrictions in the project area throughout the construction season.

The NDDOT Williston District serves the transportation needs of the communities in northwestern North Dakota, including Williston, Alexander, Watford City, New Town, Stanley, and Berthold. NDDOT has been working very hard to build new bypasses, expand roadways, and provide roadway improvements to enhance traffic movement.
