Notes:
1. Corrugated steel pipe shall conform with applicable sections of NODOT Standard Specifications and AASHTO M 183.
2. Slotted grate assembly, including rebar and structural steel, shall be of minimum grade of steel complying with the mechanical requirements of AASHTO M 183 and shall be hot dip galvanized in accordance with AASHTO M 111.
3. All labor, equipment and materials necessary to complete the work, except for the structural rebar and the inlet, shall be included in the price bid for the inlet - slotted drain.
4. The non-slotted corrugated pipe fitting (see Table 1) shall not be used for segments 4 ft. and shall be included in the price bid for the inlet - slotted drain.
5. Construction shall be in accordance with Sections 714 and 722 of the Standard Specifications.

**PAY ITEMS**

1. Inlet - Slotted Drain, 12 in.
2. Inlet - Slotted Drain, 18 in.
3. Inlet - Slotted Drain, 24 in.
4. Inlet - Slotted Drain, 30 in.
5. Inlet - Slotted Drain, 36 in.

**NOTES:**

- Corrugated steel pipe shall conform with applicable sections of NODOT Standard Specifications and AASHTO M 183.
- Slotted grate assembly, including rebar and structural steel, shall be of minimum grade of steel complying with the mechanical requirements of AASHTO M 183 and shall be hot dip galvanized in accordance with AASHTO M 111.
- All labor, equipment and materials necessary to complete the work, except for the structural rebar and the inlet, shall be included in the price bid for the inlet - slotted drain.
- The non-slotted corrugated pipe fitting (see Table 1) shall not be used for segments 4 ft. and shall be included in the price bid for the inlet - slotted drain.
- Construction shall be in accordance with Sections 714 and 722 of the Standard Specifications.
