

Thank you to the many businesses, landowners, and residents who have been involved in planning for the Memorial Highway Improvements project to date. We greatly appreciate your input and have summarized the community engagement and main themes we've heard so far below.

## INPUT

60

### Questionnaires

received from local businesses and landowners

2

### Public Meetings

held to collect input from members of the public

2

### Business Meetings

held to collect input from businesses along Memorial Highway

43

### Comments

collected at the business and public meetings

## RESPONSES

99%

of customers drive to access the businesses located near Memorial Highway, according to businesses and landowners

BUSINESS & LANDOWNER  
TOP CONCERNS

**67%**  
have concerns  
about access

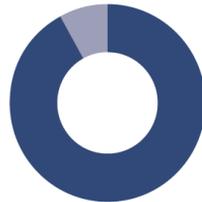

**55%**  
have concerns  
about deliveries

**28%**  
have concerns  
about safety

**35%**  
have other concerns:  
(cost, good improvements to keep  
growing Mandan, drainage problems)

**92+%**  
of businesses and landowners  
generally support the  
Mandan Memorial Highway  
Improvements project

KEY THEMES

**Access**

**Bike & Ped**

**Utilities**

**Weather**

**Access:** Businesses and landowners have questions and concerns about what will happen to their approaches, access points, and, if a median is constructed, access to their business. Many comments were received in favor of access improvements using signals at 40th Ave SE and 3rd St SE.

**Bike & Ped:** Many who commented requested improved bike and pedestrian amenities to address safety concerns. Some expressed concerns about path upkeep and snow removal.

**Utilities & Cost:** Businesses and landowners had concerns about disruptions to utility service, especially water. Others had concerns about the cost of the project and the cost of ongoing maintenance once complete.

**Weather:** Maintenance and snow plowing were top of mind for many when considering new amenities like sidewalks, a shared-use trail, and medians.

Thanks again to all who have shared your thoughts on the project! Your input is crucial to help inform our design decisions moving forward. The project team will be responding to individual comments in the near future. We will also continue to share and discuss the feedback as we develop long-term solutions for the corridor.
