

NDDOT TECHNICAL CERTIFICATION PROGRAM (TCP) RECIPROCITY

Reciprocity requests are considered on a case-by-case basis. Reciprocity is not guaranteed.

ELIGIBLE CERTIFICATION

Asphalt Pavement Inspection and Asphalt Mix Controller/Mix Design requests accepted from certification originating in Minnesota or South Dakota and are current.

Aggregate Gradations, Aggregate Field Lab, and Asphalt Mix Testing (*require a performance exam.*)

ACI Concrete Field Testing is equivalent to Concrete Field Testing and ACI Concrete Strength is equivalent to Concrete Strength

NOT ELIGIBLE

Soil Field Tester

APPLICANT RESPONSIBILITY

Verify your certifications are relevant and equivalent before submitting a request.

Review all associated ND tests and procedures published in the current [Field Sampling and Testing Manual](#).

Provide supporting documentation that describes the class content/tests with your application. If you do not provide supporting information your request will not be processed.

SUCCESSFUL COMPLETION

Reciprocal certification will be listed on the TCP registry. The expiration date will be posted based on the end of the calendar year. (*Example: if your Minnesota certification is valid through 5/15/27 it will appear as 2026*)
