Supporting Local - Keeping Safe - Staying Informed

Heads Up: New Traffic Pattern

Over the past several weeks, crews have been focused on the north side of the roadway. Attention will now shift to the south side, where crews will begin:

- Removing the existing asphalt
- Lowering (cutting down) the roadway elevation
- Installing underground utilities

You'll already notice a traffic shift at 40th Ave SE. As crews progress, drivers can expect a full roadway transition to the temporary asphalt roadway by the end of next week.

What Drivers Need to Know:

- Traffic flow will not change significantly; there will still be one lane in each direction with a center turn lane maintained.
- Drivers should continue to watch for changing traffic patterns and use extra caution through the work zone.
- 21st Street SE remains closed while crews complete curb and gutter work in that area. We'll share updates as soon as it reopens.

We appreciate your continued patience during this important project. Your cooperation helps keep both the traveling public and construction crews safe while we make long-term improvements to the Memorial Highway corridor.
